

# Are You Experiencing Infertility? Participants Are Needed!

The purpose of this study is to gather evidence for the safety and effectiveness of an investigational procedure called Ovarian Rebalancing™, which is intended to help restore ovulation in women with polycystic ovary syndrome (PCOS).

## You Might Qualify If:

- You are 18 to 40 years old
- You are experiencing infertility due to PCOS
- You have a body mass index less than 40
- You have tried medications to stimulate ovulation, without success
- You are currently seeking immediate fertility

## Participation May Include:

- Ultrasound
- Fallopian Tube patency test
- Blood tests
- Urine tests
- Physical exam
- May Health Procedure
- Study-related care provided at no cost
- Patient reimbursement is available
